**HELENSBURGH PUBLIC SCHOOL**
Stationery Requirements for Students for 2023

Helensburgh Public School have put together the following list for stationery requirements for each stage. If your child will be in the following stages in 2023, you need to supply the appropriate requirements at the beginning of the year.

These will be for **Individual use** by your child and should be labelled and sent along to school in a pencil case or similar so they can keep them centrally in their own trays. It is also worthwhile checking in with your child at the end of each term to see how their supplies are situated.

Some teachers, at the beginning of the year, may ask families to purchase additional supplies for specific activities that the class will undertake.

You will see that there are items noted to purchase and others that you may wish to check your child still has from previous years. Obviously, if they have been lost or damaged, that item will need to be replaced.

Where a brand is noted, it is the preference of teachers, as many of the other brands simply don't work to standard. There are now a number of services through many office suppliers where you can load up your stationery list and have them pack and deliver or arrange for pick up, or you may wish to buy from your preferred supplier.

Happy holidays and see you in the New Year!

Stage 1 - Years 1 and 2: K-2 students DO NOT need to bring a pencil case
